

CASE STUDY

Aurora Power³ Intelligent Mobile

*Teamsters Headquarters,
Local 731
Burr Ridge, IL*

**Pension Records
Payroll Records
Assorted Office Supplies**

When Teamsters Local 731 moved to a brand new building in Burr Ridge, IL, they had specific requirements for their new storage and filing system. They wanted a powered mobile system with advanced features.

**Aurora Power³
Intelligent Mobile:**
The Teamsters Local 731 added elegant Wood-Tek™ end panels in cinnamon mahogany with Carlyle design trim.

Teamsters Headquarters, Local 731

The Challenges

*T*eamsters Local 731 planned to build a modern facility in the Chicago suburb of Burr Ridge. The new storage and filing system would have to be in keeping with the architect's vision for the entire building.

Aesthetics were a great concern; the new system would have to blend

into the beautifully appointed building that contained Italian marble and rich mahogany woods. System safety was a consideration because multiple staffers would be working simultaneously in the aisles. Pension and payroll records were to be kept in the system, so security was important as well.

The Solution

Teamsters Local 731 chose the Power³ Electric Mobile, an intelligent plug and play system with advanced functionality. The single entry system provided exactly what they needed: keypad access, selective security, and multiple safety features allowing center aisle lockdown so that several staffers could access the system at once. Aisle task lighting was automated so that it activated whenever an aisle was entered.

Aesthetic concerns were addressed by the inclusion of Wood-Tek™, rich looking wood-clad end panels and back panels in a traditional style in cinnamon mahogany. Special back panels with locking doors were created at the back of the system, providing exterior access to commonly used office supplies without compromising the security of the rest of the system.
