Times-2 Caster Kit

PRODUCT SUMMARY:

The advantages of a Times-2™ Rotary Cabinet with the added benefit of mobility. The exclusive Times-2 Caster Kit consists of two mounting brackets with two stationary wheels, two steerable, lockable wheels and mounting hardware. Caster Kits fit Letter and Legal Times-2 units up to 5 tiers in height.*

PRODUCT FEATURES AND BENEFITS:

- Casters at all four corners provide easy movement of the Times-2 Rotary Cabinet.
- Two locking wheels help to control movement when it is not needed.
- Two rotating steerable wheels provide maneuverability when it is needed.
- Caster Kits are available in all standard Gloss-Tek powder coat colors to match unit color.
- Caster Kits can be easily installed on new units or retrofitted to existing Times-2 units up to 5-Tiers in height.

** The maximum weight load rating for the Caster Kit is 1,000 lbs which includes unit weight and media.*

The Times-2 Caster Kit comes with two mounting brackets, two stationary wheels and two locking wheels.

TECH SPEC:

Times-2 Caster Kit:

The Times-2 Rotary Cabinet Caster Kit shall consist of four 4-inch (102 MM) diameter wheels and two formed steel support channels. The kit shall consist of two stationary and two rotating and locking wheels, and shall each support a maximum of 250 lbs. (113 kg). The maximum weight load rating for the caster kit shall be 1,000 lbs. (454 kg) including weight of Times-2 unit and media. The mounting channel shall consist of 11 gauge ASTM 1045 cold rolled steel with a minimum 40% recycle content, and be finished to match the accompanying Aurora Times-2 Rotary Cabinet with an electrostatically applied Gloss-Tek™ powder coat which shall meet or exceed ASTM D3451-06 test requirements. The wheel support channel shall attach to the Times-2 base by removing the leveling feet and inserting four anchor bolts (included) in their place. No drilling or additional hardware shall be required.
